

Day Lewis Medical Carbon Reduction Plan

Supplier name: Day Lewis Medical

Publication date: July 2024

Day Lewis Medical underwent a carbon footprint calculation for the period 2023/24 utilising the support of a third-party consultancy, ClimatePartner.

The measurement of 2023/24 has been adjusted to reflect the Day Lewis Medical business and provide our baseline emissions for the Day Lewis Medical business.

Commitment to achieving Net Zero

Day Lewis Medical is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline Year: 2023

Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e) per site
Scope 1	17
Scope 2	15
Scope 3	317
Total Emissions	349

Current Emissions Reporting

Reporting Year: 2023
Additional Details relating to the Baseline Emissions calculations.
Our current emissions reporting is the same as our baseline year above which is 2023.

Carbon Reduction Projects

The following environmental management measures and projects have been completed or implemented since the 2023 baseline.

Central Highlights:

- Eco-Reporting: Compliant with SECR, ESOS, WEEE regulations
- Brighter Spaces: LED lighting upgrades for energy efficiency
- Community Impact: Charity Days supporting local causes
- Green Office: Reducing single-use crockery or cutlery, Centrally monitored energy efficient air conditioning.

Warehouse Achievements:

- Renewable Zone: Using only green energy in our warehouse
- Smart Illumination: LED lights and air handling units
- Climate Control: Fast shutter doors save energy
- Eco-Logistics: Battery-operated forklifts and pallet trucks
- Green Procurement: Biodegradable bags made from sugar cane for hub prescriptions.
- Recyclable Totes and Pallets: Our totes and pallets are re-used again and again in our supply chain
- All warehouse and support office external lighting on timers
- Solar panels installed to new warehouse facility at our support office
- Packaging recycling programme

All the above projects are set to continue over the foreseeable years.

In the future we hope to implement further measures such as:

- Electric charging points installed at our new warehouse facility at our support office
- Working with landlords to install solar panels to additional warehouse locations
- Produce a plan to reduce our energy usage.
- Investigate how wind and solar energy can be used on our assets.
- We will encourage all staff to undergo training on environmental sustainability and climate change. We will aim to raise awareness of environmental sustainability across our operations.
- We will establish a sustainability steering group to drive involvement and stewardship of sustainability across the organisation.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#).

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

A handwritten signature in black ink, appearing to read "Sam Patel", enclosed in a light grey rectangular box.
