

Carbon Reduction Plan

Supplier name: Surgitrac Instruments UK Limited

Publication date: 1st May 2024

Commitment to achieving Net Zero

Surgitrac Instruments UK Limited is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which Surgitrac Instruments UK Limited emissions reduction can be measured.

Baseline Year: 2024	
Additional Details relating to the Baseline Emissions calculations.	
Our baseline reporting year is 2024. This is our first assessed year for reported emissions. The data provided is based on Surgitrac Instruments UK Ltd.'s operations in the UK. Scope 1 emissions include mileage claimed. Scope 2 emissions include gas and electricity to heat and power our offices and warehouse. Scope 3 emissions include business travel by air and rail.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	29.4
Scope 2	2.4
Scope 3 (Included Sources)	27.1
Total Emissions	53.6

5 Year Emissions reduction targets - 2029

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 48.24 tCO₂e by 2029. This is a reduction of 10%

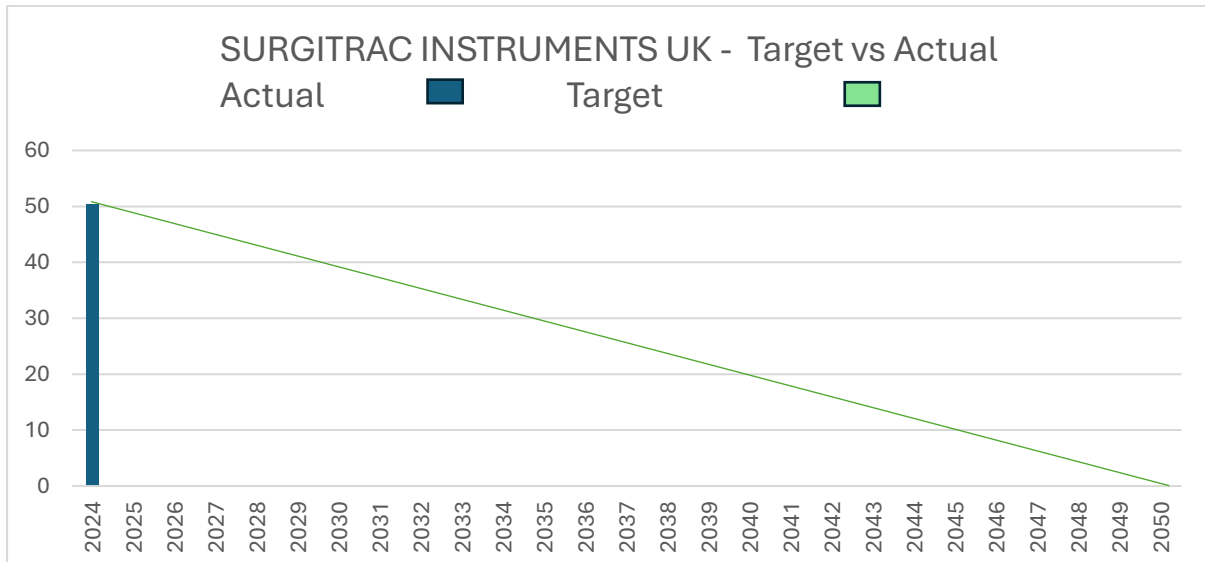

Having seen the benefits during Covid 19 of organising meetings via online platforms, Surgitrac Instruments UK Limited recognised the positive impact it had in reducing our carbon footprint. Instead of meetings now being held at our Headquarters, these are now held online wherever possible.

To reach our aim of reducing emissions by 2050 we intend to complete this by using the following carbon reduction methods.

Carbon Reduction Methods

- Our electricity supply is now procured through a renewable energy supplier
- We have continued to have hybrid working for some colleagues to work from home for part of the week
- The majority of our internal and external meetings are now conducted online
- Fluorescent lighting is progressively being replaced by LED lighting
- Recycling of stationery, printer cartridges, cardboard and plastic has been introduced in our offices and warehouse
- We will continue to align with the principles of the ISO14001 Environmental Management Systems Standard and will review our operations against the standard to identify any gaps in compliance.

All future progress will be recorded in the graph below and will be updated annually.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

2024 is our baseline emissions footprint. Despite this being the first year of reporting Surgitrac Instruments UK Limited are extremely conscious of their environmental responsibilities. Some measures have already been implemented such as recycling of stationery, printer cartridges, cardboard and plastic. Fluorescent lighting is progressively being replaced by LED lighting.

Carbon Reduction Initiatives

In the next 12 months we hope to implement further measures such as:

- Further improvements for energy monitoring and general levels of awareness
- Increase the use of rail travel
- Monitoring and improved management of waste
- Continue to communicate internally with regard to the importance of the Net Zero project to encourage positive changes.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Surgitrac Instruments UK Limited:
